

Becker Rotary Vane Pump

Variar VFD rotary vane pumps feature a patented, intelligent variable-speed controller. Well-suited for pressure pump applications, these rotary vane pumps also offer:

- 100% Oil-less operation
- Extended vane life
- 2:1 flow ratio
- integrated inlet filters
- Precise Composition Promotes long life with a durable graphite compound and resin binder
- Ideal Hardness Eliminates premature wear or pump cylinder damage
- Specialized Binders Meets each model's differing needs
- Exact Surface Finish Prevents rapid wear and high noise levels
- Precisely Machined Tolerances Prevents sticking and resists cupping

These industry leading rotary vane pumps are quiet and compact and require minimal maintenance.
