

# MWT-150 WASTE WATER TREATMENT TRAILER

**G**lobal Treatment Solution's **MWT-150 waste water treatment trailer** boasts easy set up, operation, and tear down. The system includes two trade size #2 bag filter housings, two 2,000 pound carbon vessels, HDPE pipe and pressure/suction hose plumbing, totalizing flow meter, and pressure gauges with sample ports throughout. The two vessels are set in a lead/lag configuration. Depending on filtration needs, impregnated organo clay or sand can be used instead of carbon. Global Treatment Solution's staff of MDEQ certified industrial water treatment operators are on call 24/7 to aid in the operation of this unit.
